

The Benefits of Being On Automatic Delivery Program (ADP)

1. **Convenience.** Your product is shipped to you on the 15th of every month so you never run out. You can cancel it at anytime. If you order the same amount before the 12th of the month it will be counted as your automatic order.
2. Your **income is higher**, more **consistent** and **predictable** because you, your distributors and your wholesale customers are on automatic order. **The retention rate of your distributors will be much higher as will.**
3. On the **Power Start Bonus** a one case automatic order qualifies you to get paid 30% instead of 20% on the initial order of all your personal enrollees. That is a significant difference. The Power Start Bonuses mean immediate income for you and your distributors.
4. **Attention All Business Builders:** A **2 case** automatic order qualifies you to be paid not only 30% on your personal enrollee's initial orders, but in addition you will be paid 15% on the initial orders of your **personal enrollee's personal enrollees**. Since there will be many more of these, the **15% will turn out to be worth much more** on your weekly Power Start Bonus checks than the 30%. Remember, you make the 15% on your personal enrollee's enrollees whether they come in this week, next month, or 3 years from now. This will mean a lot of money to you over time.
5. **Dynamic Compression** also applies to the **Power Start Bonuses** which means that the **15% bonuses** of the people below you who are only on a one case automatic order **will roll up to you** if you are the first person above them that is on a 2 case automatic order. This can add a lot more money to your weekly Power Start Bonus check. **Some distributors are letting a lot of money roll past them because they are only on a one case automatic order. Many times that roll up money would be a lot more than the case of product would cost.**
6. On the **Univlevel** pay, a one case automatic order qualifies you to get paid an extra level, your **3rd**, and twice as much on that: **10%**
7. **All promotions** in Xango are based on people who are on an **automatic order**. The more people in your group on automatic order, the faster everyone advances and the greater all their checks become.

***Automatic orders can be cancelled at anytime as long as it is before the 10th of the month. If it's after that the change won't take place until the following month.**
